EMERGENT
LOGIC

AI-Accelerated Solutions. Human-Centered Results.

— Clear systems

— Visible follow-up

— Human accountability

Brand owner and sole public-facing person

Himani Kharbanda | Founder & CEO

emergent-logic.ca

Brand foundation

The company should feel like a capable operator: clear, calm, specific, and accountable.

POSITIONING

Emergent Logic helps Canadian businesses implement, clean up, and automate CRM and lead follow-up systems so ownership, next steps, and reporting remain visible.

BRAND PROMISE

Make the operating path clear, fix a defined bottleneck, test the result, and leave documentation behind.

APPROVED LANGUAGE

OFFICIAL TAGLINE	AI-Accelerated Solutions. Human-Centered Results.
DESCRIPTOR	AI-accelerated CRM consulting
SERVICE LINE	CRM implementation, cleanup, automation, and lead capture systems
CAMPAIGN LINE	Find the leak. Fix the flow.

01 Precise

Name the field, owner, stage, or next step.

02 Calm

State the consequence without manufacturing fear.

03 Technical

Explain the system in language a buyer can use.

04 Evidence-led

Show the source, method, or observable condition.

05 Helpful

Give a useful next step before asking for a call.

06 Accountable

AI accelerates delivery; people own judgment.

Identity rule Himani Kharbanda is the sole public-facing person. The company page may speak as Emergent Logic.

Public identity

One accountable founder identity across profiles, outreach, documents, and social content.

AI Accelerated Solutions. Human-Centered Results.

Himani Kharbanda

Founder & CEO, Emergent Logic

Pronouns: she/her where platform-supported

APPROVED SHORT BIO

Himani Kharbanda is Founder & CEO of Emergent Logic, a Surrey-based CRM consulting firm focused on implementation, cleanup, automation, lead routing, and follow-up visibility.

GOVERNANCE

- Founder posts, bylines, quotes, bios, headshots, and signatures use Himani Kharbanda.
- No other person is positioned as a founder, employee, operator, or spokesperson without a written brand-governance change.
- Legacy multi-person business-card exports are historical only. Regenerate Himani-only collateral before distribution.
- Do not expose private employment, personal-profile, or unrelated-company information through Emergent Logic assets.

Logo system

Exactly two supplied masters. No symbol-only, reconstructed, or alternate marks.

APPROVED MASTER 1 / DARK SQUARE 1080

Use for high-resolution square placements and branded holding fields. Preserve the complete artwork.

APPROVED MASTER 2 / PRIMARY DARK 500

Use for profiles, compact square placements, schema, favicons, and faithful layout derivatives.

DERIVATIVE AND GOVERNANCE RULE

- Uniform resize or unchanged placement only; preserve aspect ratio and the complete artwork.
- Do not crop, redraw, recolour, trace, isolate, retype, or rebuild the hex symbol.
- Verify master checksums against APPROVED_LOGO_MANIFEST.md before generating derivatives.

Clear space, size, and contrast

The mark must remain visible before it is decorative.

CLEAR SPACE

Let x equal 25% of the complete artwork width. Keep at least x clear on all four sides.

MINIMUM SIZE

Dark square 1080	160 px digital	42 mm print
-------------------------	----------------	-------------

Primary dark 500	160 px digital	42 mm print
-------------------------	----------------	-------------

Below the logo minimum, use Emergent Logic as accessible live text. There is no approved symbol-only mark.

Light page

Complete dark square master

Dark page

Complete primary dark master

Square

Profile

Primary dark master

Colour system

Navy and indigo are canonical. Functional colours explain state; they do not decorate the page.

Brand Navy #1E3A5F
Brand anchor and dark fields

Signal Indigo #6366F1
Logo nodes and large accents

Action Indigo #4B37C8
Buttons, links, active states

Deep Ink #101828
Primary text

White #FFFFFF
Reverse text and surfaces

Muted Slate #667085
Secondary text

Soft Indigo #EEF2FF
Tinted panels

Paper #FBFBFF
Light background

Line #DFE3F5
Borders and dividers

Process Teal #0F766E
Verified and complete

Alert Coral #D95D39
Risk and bottlenecks

RECOMMENDED LIGHT-ASSET PROPORTION

72% Paper | 15% Navy | 8% Indigo | 3% Teal | 2% Coral

Use Action Indigo, not Signal Indigo, behind normal-size white button text.

Typography

Inter is primary. Helvetica or Arial is the approved portable fallback.

TYPE SPECIMEN

Clear systems.
Visible follow-up.

CRM implementation, cleanup, automation,
and lead capture systems.

Inter 700 / fallback Helvetica Bold

Letter spacing: 0 | No thin weights | Sentence case

WEB SCALE		
DISPLAY	48 / 56	Systems people trust
H1	40 / 48	CRM cleanup, clearly
H2	30 / 38	What the current path shows
H3	22 / 30	Ownership and routing
BODY	16 / 26	Map, fix, test, document.
SMALL	14 / 22	Scope and methodology note
LABEL	12 / 16	VERIFIED PROCESS

PRODUCTION RULES

- Use 800 for cover statements, 700 for headings and key numbers, 600 for labels, and 400 for body copy.
- Use sentence case. Reserve all caps for labels of three words or fewer.
- On mobile, use 36/44 for display and 32/40 for H1. Do not scale type continuously with viewport width.
- Never shrink text to force excess copy into a fixed container. Edit the copy or expand the layout.

Website and interface layout

Quiet, operational, and built for scanning, comparison, and repeated action.

The mockup shows a dark blue header with the Emergent Logic logo on the left and navigation links (Services, Pricing, Research, Contact) on the right. Below the header, a section titled 'LITERAL OFFER' features a large headline 'Fix one CRM bottleneck in five business days', a subtext 'Clear scope. Tested handoff. Documentation included.', a primary CTA button 'Book a fit check', and a section 'The operating path' with a four-step flow: Capture, Route, Follow up, and Report. The bottom section, 'Evidence before claims', includes instructions to use real reports, workflow diagrams, CRM screens, or public source tables, and to show the actual product, state, process, or deliverable.

LOGIC

Services Pricing Research Contact

LITERAL OFFER

Fix one CRM bottleneck in five business days

Clear scope. Tested handoff. Documentation included.

Book a fit check

The operating path

Capture Route Follow up Report

Evidence before claims

Use real reports, workflow diagrams, CRM screens, or public source tables.

Show the actual product, state, process, or deliverable.

STRUCTURE

- Use full-width page bands with a constrained content column.
- Put the actual service, CRM state, report finding, workflow, or offer in the first viewport.
- Use cards only for repeated items, comparisons, or framed tools.
- Never place cards inside cards.
- Keep card and button radii at 8 px or less.
- Use one primary CTA per section.

BUTTON HIERARCHY

Primary action

Secondary action

Text links use Action Indigo on light surfaces.

Document and PDF layout

A branded document should reveal the observation, implication, and next step without visual noise.

Public inquiry path review

Subject | Prepared date | Scope

Opportunity

What the public path shows

Recommended next step

Emergent Logic | emergent-logic.ca | scope note

CONTENT ANATOMY

- 01 Context or opportunity
- 02 Evidence or public observation
- 03 Operational implication
- 04 Recommended next step
- 05 Scope and methodology note

PRODUCTION RULES

- US Letter portrait for audits and one-page reviews; landscape for presentations and reference guides.
- Use at least 0.5 inch margins and one CTA block per page at most.
- Use Coral for risk and Teal for verified or complete states.
- Use live links and a footer with brand, website, version/date, and page number where appropriate.
- Use 'Prepared by Himani Kharbanda, Founder & CEO' when a personal byline is needed.

Social layout

One operator insight, one proof element, one action.

APPROVED FORMATS

LinkedIn portrait

1080 x 1350 | 80 px safe margin

Social square

1080 x 1080 | 72 px safe margin

Open Graph

1200 x 630 | 64 px safe margin

COMPOSITION

- Top: one complete approved master, or the company name as live text without a reconstructed symbol.
- Primary: one claim, question, number, or operator insight.
- Evidence: one diagram, checklist, source note, or real deliverable excerpt.
- Footer: one CTA and the domain.
- Keep core image copy under 30 words when possible.
- Founder content uses Himani; company content uses the company page.

Tone of voice

Specific before impressive. Systems before tools. Evidence before claims.

01 Specific before impressive

Name the field, owner, stage, workflow, or next step.

03 Evidence before claims

Show the source, method, or observable condition.

05 Helpful before salesy

Give the reader a useful next step before asking for a call.

02 Systems before tools

Explain the operating path before recommending software.

04 Calm before urgent

State consequences without manufacturing fear.

06 Human accountability

AI accelerates delivery; it does not replace ownership or judgment.

AVOID

Revolutionize your revenue with an autonomous AI CRM system.

Vague promise | autonomous claim | no operating detail

USE

We map the handoff, fix the routing or workflow, test it, and document the result.

Defined work | human ownership | testable finish line

Incorrect usage

Protect recognition, accessibility, trust, and public identity.

Invented mark

Do not use a letter-based EL roundel as an Emergent Logic logo.

Distorted mark

Do not stretch, crop, rotate, bevel, glow, or shadow a logo.

Reconstructed lockup

Do not retype, rearrange, or replace the supplied wordmark or tagline.

Colour drift

Do not add new violet or blue shades when an approved token works.

Identity drift

Do not use another personal identity in public brand materials.

Invented proof

Do not publish fabricated metrics, testimonials, logos, or outcomes.

Weak contrast

Do not use normal white text on Signal Indigo or Alert Coral without checking contrast.

Crowded layout

Do not use nested cards, clipped text, negative tracking, or overflowing containers.

Transitional assets require review Legacy website violet, multi-person cards, old social exports, and the old Open Graph image are not automatic templates.

Production governance

Source files, approval gates, and the final quality check.

APPROVED SOURCE ASSETS

Dark square master	assets/emergent_logic_dark_square_1080.png
Primary dark master	assets/emergent_logic_primary_logo_dark_500.png
Logo manifest	content/brand/APPROVED_LOGO_MANIFEST.md
Derivative generator	content/brand/generate_approved_logo_derivatives.py
Machine-readable tokens	content/brand/emergent-logic-brand-tokens.json
Human-readable guide	content/brand/EMERGENT_LOGIC_BRAND_GUIDELINES_2026.md

HIMANI APPROVAL REQUIRED

- Logo, colour, typography, or descriptor changes
- New public personal identities
- Founder bios, headshots, or quotes
- Client logos, testimonials, or outcome claims
- Paid advertising master creative
- Permanent homepage or navigation brand changes

PRE-PUBLISH CHECKLIST

- ☐ Brand name is Emergent Logic; Himani Kharbanda is the only public-facing person.
- ☐ Colours match the token file; no new violet or blue variant was introduced.
- ☐ Normal text meets 4.5:1 contrast; layout has no clipping, overlaps, or nested cards.
- ☐ Email, phone, domain, CTA, live links, and prepared date are correct.
- ☐ Approved logo source, contrast variant, clear space, and minimum size are correct.
- ☐ Inter or an approved fallback is used with letter spacing 0.
- ☐ Claims are sourced and qualified; client names, screenshots, logos, and metrics are permission-safe.
- ☐ PDF or image export was reviewed at full size and thumbnail size.
